	<p>What was the scope of the project completed by the contractor? Bridge element repairs such as : expansion joints repairs, spalls repairs, cracks repairs, bridge railing repairs, etc. What was the total cost of the project? \$861,127.70. How did the company handle the paperwork, such as payroll and invoicing? Invoicing of work orders was timely. How did the contractor handle small changes in the field? Changes were handled properly and professionally.</p>	<p>What was the scope of work of the project completed by the contractor? Bridge maintenance and repair on the Aztec Bridge in Miami, FL. What was the total cost of project? Approx. \$30,000. How did the company handle the paperwork, such as payroll and invoicing? They provided all submittals, documentation and paperwork on a timely basis and per our standards. How did the contractor handle small construction changes in the field? They were conscientious and proactive and handled changes appropriately. Additional Comment: Good and communicative project manager, good work quality, timely completion.</p>	<p>What was the scope of the work the project completed by contractor? Repair of City Marina concrete piers B, C & D. This required new pilings, pouring 8' of new reinforced concrete over existing decking, removal and replacement of utilities (water, phone, fire protection, gates, fencing, walkways, utility pedestals, lighting, electric). What was the total cost of project? \$332,000. How did the company handle the paperwork, such as payroll and invoicing? The contractor handle paperwork, payroll and invoicing? Good. How did the contractor handled small construction changes in the field? Work that involved their personnel was good and no issues. Resolving change order with their subcontractors took some time, but the results was good. Additional Comment: The budget for this project was fixed and with any renovation project is saltwater the extent of damage exceed the anticipated conditions. The Contractor did work with the City to get this project complete with this limited funding. The contractor replaced his low bid piling subcontractor who was delaying this project due to equipment issues with BK Marine who finished the project and did a great job.</p>
