**Subject:** Re: 654 Oleander Drive

It is our understanding that the Variance for an encroachment into the rear setback (9' balcony variance) will result in an invasion of the privacy of the neighbors and therefore our covenants do not allow us to approve it. I would appreciate a list of all the variances that they are requesting.

Good morning Ms. Markowitz,

We have spoken months ago regarding 654 Oleander Drive, where the owner of the property was requesting an administrative variance of required yard setbacks and building height. We discussed that the plans were previously approved by the Golden Isles Association and you explained that the plans as submitted for the administrative variance were different from those approved by the association. Is it possible to get a statement from you indicating such change?

The applicant has opted for a City Commission hearing on June 4, 2014, and staff would like to have the association's statement on the matter. Please let me know if the request is attainable.

Thank you,

--
